

# IMPORTANT!!! PLEASE READ !!!

Follow these instructions to install an AirPort Adapter Card into an AirPort-ready iMac computer.

1. Shut down the computer.
2. Unplug all cables, except the power cord.
3. Place the computer face down on a soft cloth.
4. Unlock the access door with a coin and open it .
5. Touch the metal shield inside the recessed latch area to discharge static electricity.
6. Unplug the power cord from the computer. Don't walk around until you've finished installing the AirPort Adapter Card.
7. Align the edges of the AirPort Adapter Card with the guides on the slot and insert the AirPort Adapter Card sideways into the slot, as shown in Figure 1.  
**Note:** Leave the antenna attached to the left guide rail and connected to the protective cap.

**Figure 1** Inserting the AirPort Adapter Card

8. Close the access door and use a coin to lock it.
9. Reconnect all cables and cords.

**NOTE:**

**Always keep this card installed in this system. If you decided to install an Airport card, please use this adapter card instead of the one the Airport card came with.**
